Category Name Release A to B Transition **Actionee** ECS

Sub Category

Subject Requirements Baseline needed for M&O.1 transition to Release B

Description of Problem or Suggestion:

The Release B SDPS/CSMS CDR "M&O's Road to Release B RRR" presentation on Day 9 includes a list of documentation on page SD-7.

The list does not include, nor is there identified elsewhere, an M&O.1 Requirements Baseline document or RTM repository class for M&O.1.

There needs to be a requirements baseline in order to perform the M&O.1 development and test activities referred to in the CDR presentation, given that M&O.1 is to be a key component of the REL B transition.

Originator's Recommendation

Define an M&O.1 Requirements Baseline which includes:

- All Release A requirements which are met in the M&O.1 release
- All Release B requirements which are met in the M&O.1 release
